"I have worked in all areas of information technology, from hardware maintenance, software development and project management to IT general management. I earned the CISA certification in 1994, and it opened up new avenues of information systems consulting for me."

—Avinash Kadam, CISA, CISM, Director of MIEL e-Security Pvt. Ltd., India

Today's complex business and technology environment continues to challenge enterprises seeking to protect and control IT and business systems. In addition, there is an ever-increasing number of government regulations and oversight that require stronger internal control and disclosures.

The technical skills, knowledge and practices that ISACA's Certified Information Systems Auditor® (CISA®) program promotes and evaluates are the building blocks to meeting these challenges.

With the CISA designation comes many professional and personal benefits, including:

- Worldwide recognition for professional experience
- Enhanced knowledge and skills
- Career advancement

GAIN WORLDWIDE RECOGNITION WITH CISA

A growing number of organizations are requiring or recommending that employees become certified. For example, the US Department of Defense (DoD) mandates that information assurance personnel be certified with a commercial accreditation approved by the DoD. CISA is an approved accreditation, signifying the DoD's confidence in the credential. To help ensure success in the global marketplace, it is vital to select a certification program based on universally accepted technical practices. CISA delivers such a program. CISA is recognized worldwide, by all industries, as the preferred designation for information systems (IS) governance, assurance and security professionals.

Enhanced Knowledge and Skills

Earning the CISA designation distinguishes individuals as qualified IS audit, control and security professionals. CISA has the proven ability to perform reviews in accordance with globally accepted standards and guidelines to ensure that an enterprise's IT and business systems are adequately controlled, monitored and assessed. The CISA designation ensures employers that their staff have met the current education and experience criteria necessary for successful on-the-job performance.

Career Advancement

Because the CISA program certifies individuals who demonstrate proficiency in today's most sought-after skills, employers prefer to hire and retain those who achieve and maintain the designation. Whether looking to enhance on-the-job performance or secure a promotion or new position, becoming a CISA sets one apart from other candidates and provides a competitive advantage.

CISA Program Accredited Under ISO/IEC 17024:2003

The American National Standards Institute (ANSI) has accredited the CISA certification under ISO/IEC 17024:2003, General Requirements for Bodies Operating Certification Systems of Persons. ANSI, a private, nonprofit organization, accredits other organizations to serve as third-party product, system and personnel certifiers. ISO/IEC 17024 specifies the requirements to be followed by organizations certifying individuals against specific requirements. ANSI's accreditation:

- Promotes the unique qualifications and expertise that ISACA® certifications provide
- Protects the integrity of the certifications and provides legal defensibility
- Enhances consumer and public confidence in the certifications and the people who hold them
- Facilitates mobility across borders or industries

The accreditation is both an international and US accreditation: it is based on an international standard but implemented by ANSI to be recognized in the US and other countries that enter into an arrangement with ANSI. This is in keeping with the purpose of ISO/IEC 17024 to begin standardization of accreditation of personnel certification agencies around the world.

ABOUT THE CISA EXAM

The CISA exam is offered each year and consists of 200 multiple-choice questions that cover the five job practice areas created from the most recent CISA job practice analysis. The practice areas and percentages below indicate the emphasis of questions that will appear on the exam. The job practice analysis was developed and validated using prominent industry leaders, subject matter experts and industry practitioners.

Job Practice Areas

The areas and their definitions are as follows:

- 1. The Process of Auditing Information Systems (14 percent)**—Provide audit services in accordance with IT audit standards to assist the organization with protecting and controlling information systems.
- 2. Governance and Management of IT (14 percent)**—Provide assurance that the necessary leadership and organizational structures and processes are in place to achieve objectives and to support the organization's strategy.
- 3. Information Systems Acquisition, Development and Implementation (19 percent)**—Provide assurance that the practices for the acquisition, development, testing, and implementation of information systems meet the organization's strategies and objectives.
- 4. Information Systems Operations, Maintenance and Support (23 percent)**—Provide assurance that the processes for information systems operations, maintenance and support meet the organization's strategies and objectives.
- 5. Protection of Information Assets (30 percent)**—Provide assurance that the organization's security policies, standards, procedures and controls ensure the confidentiality, integrity and availability of information assets.

CISA exam questions are developed and maintained carefully to ensure that they accurately test an individual's proficiency in IS audit, control, assurance or security practices. For a description of task and knowledge statements for each area, please refer to www.isaca.org/cisajobpractice.

REQUIREMENTS FOR EARNING CISA CERTIFICATION

To become a CISA, an applicant must:

1. Achieve a passing score on the CISA exam. A passing score on the CISA exam, without completing the required work experience as outlined below, is only valid for five years. If the applicant does not meet the CISA certification requirements within the five year period, the passing score is voided.
2. Submit an application with verified evidence of five years of work experience in the fields of IS auditing, control, assurance or security. Work experience must be gained within the 10-year period preceding the application date for certification or within five years from the date of initially passing the exam.

Substitutions and waivers of such experience, to a maximum of three years, may be obtained as follows:

- A maximum of one year of IS **OR** one year of non-IS auditing experience can be substituted for one year of experience.
- Sixty to 120 completed university semester credit hours (the equivalent of a two-year or four-year degree), not limited by the 10-year preceding restriction, can be substituted for one or two years, respectively, of experience.
- A bachelor's or master's degree from a university that enforces the ISACA-sponsored *Model Curriculum* can be substituted for one year of experience. To view a list of these schools, please visit www.isaca.org/modeluniversities. This option cannot be used if three years of experience substitution and educational waiver have already been claimed.
- A master's degree in information security or information technology from an accredited university can be substituted for one year of experience.

Exception: Two years as a full-time university instructor in a related field (e.g., computer science, accounting, IS auditing) can be substituted for every one year of experience.

As an example, at a minimum (assuming a two-year waiver of experience by substituting 120 university credits), an applicant must have three years of actual work experience. This experience can be completed by:

- Three years of IS audit, control, assurance or security experience
- OR**
- Two years of IS audit, control assurance or security experience and one full year non-IS audit or IS experience or two years as a full-time university instructor.

It is important to note that many individuals choose to take the CISA exam prior to meeting the experience requirements. This practice is acceptable and encouraged although the CISA designation will not be awarded until all requirements are met.

3. Agree to abide by ISACA's Code of Professional Ethics which can be viewed at www.isaca.org/ethics.
4. Agree to abide with IS Auditing Standards as adopted by ISACA, which can be viewed at www.isaca.org/standards.
5. Agree to abide by the CISA continuing professional education (CPE) policy, which can be viewed at www.isaca.org/cisacpepolicy.

PREPARING FOR THE CISA EXAM

Passing the CISA exam can be achieved through an organized plan of study. To assist individuals with the development of a successful study plan, ISACA offers study aids and review courses to exam candidates (see www.isaca.org/cisabooks for more details). Order early: The delivery time can be one to two weeks, depending on geographic location and customs clearance practices. For current shipping information, see www.isaca.org/shipping.

■ **CISA® Online Review Course** is an interactive, web-based course that provides CISA exam candidates and ISACA members throughout the world with a consistent, efficient and cost-effective tool for exam preparation. The course includes interactive exercises, case studies, review tools and practice questions. Visit www.isaca.org/elearning.

■ **Candidate's Guide to the CISA Exam and Certification** is supplied to individuals upon receipt of the CISA exam registration form and payment. This guide provides a detailed outline (task and knowledge statements) of the five content areas covered on the exam. It also contains exam administration information, examples of question types, certification and maintenance requirements, and a sample copy of an admission ticket and exam answer sheet.

■ **CISA Review Manual 2011** features an easy-to-use format and has been updated to reflect a new job practice analysis. Each of the five chapters has been divided into two sections for focused study. Section one of each chapter contains the definitions and objectives for the five areas, as well as the corresponding tasks performed by IS auditors and knowledge statements (required to plan, manage and perform IS audits) that are tested on the exam. It also includes:

- A map of the relationship of each task to the knowledge statements
- A reference guide for the knowledge statements, including the relevant concepts and explanations
- References to specific content in Section Two for each knowledge statement
- Sample practice questions and explanations of the answers
- Suggested resources for further study

Section two of each chapter consists of reference material and content that supports the knowledge statements. The material enhances CISA candidates' knowledge and/or understanding when preparing for the CISA certification exam. In addition, the *CISA Review Manual 2011* includes brief chapter summaries focused on the main topics and case studies to assist candidates in understanding current practices. Also included are definitions of terms most commonly found on the exam.

■ **CISA® Review Questions, Answers & Explanations Manual 2011** consists of 900 multiple-choice study questions that have previously appeared in the *CISA® Review Questions, Answers & Explanations Manual 2010* and the *2010 Supplement*. Many questions have been revised or completely rewritten to recognize changes based on the new 2011 CISA job practice, to be more representative of the current CISA exam question format, and/or to provide further clarity or explanation of the correct answer. These questions are not actual exam items, but are intended to provide CISA candidates with an understanding of the type and structure of questions and content that have previously appeared on the exam. Questions are sorted by job practice areas, and a scrambled sample 200-question exam is included. This publication is ideal to use in conjunction with the *CISA Review Manual 2011*.

■ **CISA® Review Questions, Answers & Explanations Manual 2011 Supplement** features 100 new sample questions, answers and explanations to help candidates effectively prepare for the 2011 CISA exam. These new questions reflect the 2011 CISA job practice areas and are designed to be similar to actual exam items. The questions are intended to provide CISA candidates with an understanding of the type and structure of questions that have typically appeared on past exams, and were prepared specifically for use in studying for the CISA exam. This publication is ideal to use in conjunction with the *CISA Review Manual 2011* and the *CISA® Review Questions, Answers & Explanations Manual 2011*.

■ **CISA® Practice Question Database v11** combines the *CISA Review Questions, Answers & Explanations Manual 2011* with the *CISA Review Questions, Answers & Explanations Manual 2011 Supplement* into one comprehensive 1,000-question pool of items. Candidates can take sample exams with randomly selected questions, and view the results by job practice, allowing for concentrated study in particular areas. Additionally, questions generated during a study session are sorted based on previous scoring history, allowing CISA candidates to easily and quickly identify their strengths and weaknesses, and focus their study efforts accordingly. Other features provide the ability to select sample exams by specific job practice areas, view questions that were previously answered incorrectly and vary the length of study sessions. The database software is available in CD-ROM format or as a download.

PLEASE NOTE the following system requirements:

- 400 MHz Pentium processor or equivalent (minimum); 1 GHz Pentium processor or equivalent (recommended)
- Supported operating systems: Windows Server 2003, Windows Server 2008, Windows Vista, Windows XP, Windows 7
- Microsoft .NET Framework 3.5
- 512 MB RAM or higher
- One hard drive with 250 MB of available space (flash/thumb drives not supported)
- Mouse
- CD-ROM drive

The CISA Practice Question Database v11 is licensed for installation on one computer only for personal, noncommercial use.

■ CISA review courses are conducted by many ISACA chapters. Exam candidates should contact their local ISACA chapter to find out if a review course is being offered. These courses are often taught by current CISAs who present and discuss exam topics and share their secrets of success. Information pertaining to chapter contacts and course offerings is available at www.isaca.org/chapters and www.isaca.org/cisareview, respectively.

No representation or warranties assuring candidates' passage of the exam are made by ISACA in regard to these or other association publications or courses.

CISA EXAM ADMINISTRATION

Admission Ticket

Approximately two to three weeks prior to the CISA exam date, candidates will receive a physical admission ticket and an e-ticket from ISACA. The ticket will indicate the date, registration time and location of the exam, as well as a schedule of events for that day and a list of materials that candidates must bring with them to take the CISA exam. Candidates can use either a printout of the e-ticket or the hard copy admission ticket for entry into the exam. With the exception of contact information changes, candidates are not to write on the admission ticket.

Please note: In order to receive an admission ticket, all fees must be paid. Admission tickets are sent via hard copy and email to the current postal mailing and e-mail address on file. Only candidates with an admission ticket and acceptable form of government issued ID will be admitted to take the exam and the name on your admission ticket must match the name on your government issued ID. The hard copy admission ticket or print out of the eTicket is valid for admission into the exam. If a candidate's mailing and/or e-mail address changes, he/she should update his/her profile on the ISACA web site (www.isaca.org) or contact exam@isaca.org.

Candidates must locate and note the specific registration and exam time on their admission ticket. **No candidate will be admitted to the test center once the chief examiner begins reading the oral instructions, approximately 30 minutes before the exam begins.** Any candidate who arrives after the oral instructions have begun will not be allowed to sit for the exam and will forfeit his/her registration fee. A candidate can use his/her admission ticket only at the designated test center on his/her admission ticket.

Candidates will be admitted to the test center only if they have a valid admission ticket and an acceptable form of identification (ID). An acceptable form of ID must be a current and original government-issued ID that contains the candidate's name, as it appears on the admission ticket, and the candidate's photograph. The information on the ID cannot be handwritten. All of these characteristics must be demonstrated by the single piece of ID provided. Examples include, but are not limited to, a passport, driver's license, military ID, state ID, green card and national ID. Any candidate who does not provide an acceptable form of ID will not be allowed to sit for the exam and will forfeit his/her registration fee. IDs will be checked during the exam.

Any candidate who has not received his/her admission ticket by 1 June 2011, should contact the ISACA certification department immediately at exam@isaca.org or via phone at +1.847.660.5660.

No food or drinks are allowed at any exam site, unless special arrangements have been made in advance. Please refer to "Special Arrangements" on page 6.

Misconduct

Candidates who are discovered engaging in any kind of misconduct, such as giving or receiving help; using notes, papers or other aids; attempting to take the exam for someone else; using any type of communication device including cell phones during the exam administration; or removing the exam booklet, answer sheet or notes from the testing room will be disqualified and may face legal action. Candidates who leave the testing area without authorization or accompaniment by a test proctor will not be allowed to return to the testing room and will be subject to disqualification. The testing agency will report such irregularities to ISACA's CISA Certification Committee.

Security

Candidates are not allowed to bring any type of communication devices into the test center. **If a candidate is observed with any communication device (i.e., cellular phone) during the exam administration, their exam will be voided and they will be asked to immediately leave the test site.** Neither ISACA or its testing vendor takes responsibility for personal belongings of candidates. ISACA will not assume responsibility for stolen, lost or damaged personal property. To review the Personal Belongings Policy, please visit www.isaca.org/cisabelongings.

"CISAs represent an exclusive group of IS auditing professionals that desire to take IT to the highest standard possible. They are globally accepted and highly regarded. It is truly an honor to be among them."

—*Susanna Chiu, CISA, Senior Vice President, Li & Fung (Trading) Ltd.*

CISA EXAM RESULTS

Receiving Your Score

Please notify the certification department immediately if your registration contact information changes. **Approximately eight weeks after the test date, the official exam results will be mailed to candidates.** Additionally, with the candidate's consent on the registration form, an e-mail message containing the candidate's pass/fail status and score will be sent to the candidate. This e-mail notification will only be sent to the address listed in the candidate's profile at the time of the initial release of the results. To ensure the confidentiality of scores, exam results will not be reported by telephone or fax. To prevent e-mail notification from being sent to spam folders, candidates should add *exam@isaca.org* to their address book, whitelist or safe-senders list.

Reporting of Your Test Results

Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate's raw score on an exam to a common scale. ISACA uses and reports scores on a common scale from 200 to 800. For example, the scaled score of 800 represents a perfect score with all questions answered correctly; a scaled score of 200 is the lowest score possible and signifies that only a small number of questions were answered correctly. A candidate must receive a score of 450 or higher to pass the exam. A score of 450 represents a minimum consistent standard of knowledge as established by ISACA's CISA Certification Committee. A candidate receiving a passing score may then apply for certification if all other requirements are met.

The CISA exam contains some questions which are included for research and analysis purposes only. These questions are not separately identified and not used to calculate your final score.

Passing the exam does not grant the CISA designation. To become a CISA, each candidate must complete all requirements as listed on page 4.

Retaking the CISA Exam

A candidate receiving a score of less than 450 has not passed and can retake the exam by registering for and paying the appropriate exam fee for any future exam administration. To assist with future study, the results letter each candidate receives will include a score analysis by content area. There are no limits to the number of times a candidate can take the exam.

MAINTAINING CISA CERTIFICATION

A major strength of any professional designation is a program of CPE that the individual must follow to retain certification. To maintain CISA certification, individuals must comply with a CPE policy (www.isaca.org/cisacpepolicy) and abide by ISACA's Code of Professional Ethics (www.isaca.org/ethics). Together, these programs help ensure that CISAs remain current with technical and industry advances and demonstrate high professional principles.

The CPE policy requires the individual to earn and submit a minimum of 20 CPE hours and to pay a maintenance fee each year. In addition, a minimum of 120 CPE hours must be earned and submitted during a fixed three-year certification period. To more easily meet the three-year cycle requirement of 120 hours, it is suggested that individuals earn an average of 40 CPE hours annually. **Failure to comply with this policy will result in revocation of an individual's certification.**

More than 93 percent of all CISAs remain certified each year. This is an exemplary statistic that demonstrates the importance CISAs place on retaining the CISA credential.
